Liquid Weed Killer

- * Ready to Use
- * Nonselective
- * Soil Sterilant
- * Penetrates Quickly
- * Rapid Knockdown
- * Full Season Control
- * Prevents Plant Regrowth

This total kill, nonselective soil sterilant herbicide has been formulated for rapid and thorough eradication of undesirable vegetation in non-cropland areas. This product is ready to use for easy, foolproof application with no need to measure and dilute. The product contains highly effective ingredients to provide rapid top kill and long-term, full-season root kill. This product provides the most effective features of root absorption and translocation, with leaf and stem absorption for visible top kill. Recommended areas for use include fence rows, ditches, along roadsides, powerlines, right-of-way and around buildings.

This product has proven to be extremely effective in all geographical regions, soil conditions, and temperature ranges.

APPLICATION:

One gallon to two gallons per 1000 square feet

ACTIVE INGREDIENT:

2,4 Dichlorophenoxyacetic acid, isocetyylester*:	1.09%
Bromacit (5-bromo-3-sec-butyl-6-methyluricil):	0.98%
INERT INGREDIENTS:	97.93%
TOTAL:	100.00%

*2,4-Dichlorophenoxyacetic acid equiv. 0.70%

C-855-55, C-855-05

TECHNICAL DATA SHEET

Product Name: Barren

Item Number: C-855-55, C-855-05

Description: This product is designed for use in areas where all vegetation is to be killed. By using this herbicide, all the vegetation will be killed (non-selective), and control will last for one growing season (residual), avoiding costly hand weed cuttings and/or several weed killing applications. This high performance herbicide is a triple kill formula - contact kill, top kill, and root kill. The phytotoxic oil carrier combines the properties of low volatility with rapid penetration, absorption, and translocation of the active ingredients to produce rapid browning and contact kill. The 2,4-D provides systemic kill forcing the plant to outgrow itself. The Bromacil, once in the ground, will kill the roots and prevent any new weed growth. The insolubility of Bromacil in water maximizes effect regardless of rainfall after application or stage of growth at time of application. This product may be applied at any time of the year when weeds are growing. Plant growth will be controlled for up to one growing season, depending upon application volume and soil consistency. Care should be taken to avoid over spraying, or allowing spray drift to contact desirable vegetation. Coverage: 1- 2 gallons for each 1000 square feet. Ready-to-use. (Note: It is a violation of federal law to use this product in a manner inconsistent with its labeling. See product label copy for specific information.)

CAUTION: HARMFUL OR FATAL IF SWALLOWED. CONTAINS PETROLEUM DISTILLATES. CALL PHYSICIAN IMMEDIATELY. May cause irritation of eyes, nose, throat and skin. If swallowed, do NOT induce vomiting. Immediately drink egg whites, milk, or gelatin solution. Call physician immediately. Avoid breathing vapor or mist when spraying this product. Avoid contact with skin, eyes, or clothing. In case of contact with skin, wash with soap and water. In case of contact with eyes, immediately flush with large amounts of water, and get medical attention. Remove and wash contaminated clothing with good laundry detergent before reuse. Apply the product only as specified on this label. Do not apply when weather conditions favor drift from areas treated. **ENVIRONMENTAL HAZARDS:** This product is toxic to fish and wildlife. Do not contaminate water by cleaning of equipment or disposal of waste. Do not apply on or near desirable trees, shrubs, grasses, or other plants, or on areas where roots of desirable vegetation may extend. Do not contaminate irrigation or domestic water supplies. Thoroughly clean application equipment with some good detergent after each use. Vapors from this product may injure susceptible plants in the immediate vicinity. Coarse sprays are less likely to drift. Avoid spray drift to susceptible plants, as this product may injure cotton, beans, peas, grapes, ornamentals, etc. **PHYSICAL OR CHEMICAL HAZARDS:** Do not use or store near heat or open flame. KEEP OUT OF REACH OF CHILDREN.

Container Disposal: See product label copy for specific information.

Spill Or Leakage Procedures: Contain spill. Do not contaminate sewers, ground waters or surface waters. Soak up in inert absorbent material & place into properly labeled & sealed non-leaking containers for disposal in authorized manner as hazardous waste.

Product Specifications:

EPA Reg. No: 8123-29-10807

Active Ingredients: 2,4-Dichlorophenoxyacetic acid, isooctyl ester*: 1.09%; Bromacil (5-bromo-3-sec-butyl-6-methyluracil): 0.98%

Inert Ingredients: (Contains Petroleum Distillates) 97.93%

Classification: Liquid Herbicide

General Appearance: Clear Liquid

Color: Gold to Dark Brown

Odor: Petroleum

Lbs./gal: 7.27

Flash Point: 104°F TCC

HMIS RATING: Health-2; Flammability-2; Reactivity-0; Personal Protection-B.
